

São Jose dos Campos, May 14, 2014.

Dear Colleagues,

Since we have more than 70 contributions submitted for the poster sessions, we were forced to limit the space for exposing the contribution works to 1 meter wide by 1.2 meter height.

Those workshop attendees, who are going to present oral contributions, please check the workshop program schedule in order to verify the amount of time available for the presentations. Also, these attendees are kindly asked to leave 2-4 minutes for questions at the end of their speeches.

For the oral presentation there will be a data show cable connection available and a notebook running Windows OS in case they want to bring the presentation only.

We are also looking for mean to offer the possibility for deposit the presentation prior to the arrival using Dropbox.

See you in Sao Jose dos Campos !

We hope to see you in Sao Jose dos Campos!

With our best regards,

Clezio Marcos De Nardin
